### GigaMedia Announces First-Quarter 2021 Financial Results

TAIPEI, Taiwan, May 3, 2021 – GigaMedia Limited (NASDAQ: GIGM) today announced its first quarter 2021 unaudited financial results.

#### Comments from Management

For the first quarter of 2021, GigaMedia reported revenues of \$1.45 million with a gross profit of \$0.79 million, an operating loss of \$0.90 million and the net loss of \$0.88 million. Total revenues increased by 2.0% if compared to the previous quarter.

“Our business momentum has slowed since the fourth quarter 2020,” said GigaMedia CEO James Huang, “but as we stick with our strategies of internally-driven growth and effective marketing, we managed to sustain growth in revenues and keep costs and expenses in check.”

#### First Quarter Overview

- Operating revenues increased slightly by 2.0% in quarter-on-quarter comparison, and decreased by 9.9% year-over-year. The slowdown was primarily due to declines in certain of our licensed mobile games, where the upgrades and supports from our Japanese and Korean licensors were severely hampered by the COVID-19 pandemic.
- Loss from operations increased to \$0.90 million from \$0.61 million last quarter, and net loss to \$0.88 million, from \$0.34 million last quarter. The increases were mainly due to rises in certain general expenses.

#### Unaudited Consolidated Financial Results

GigaMedia Limited is a diversified provider of digital entertainment services. GigaMedia’s digital entertainment service business FunTown develops and operates a suite of digital entertainments in Taiwan and Hong Kong, with focus on mobile games and casual games. ## First-Quarter Financial Results

- Consolidated revenues for the first quarter of 2021 increased by 2.0% quarter-on-quarter to \$1.45 million, from \$1.42 million in the fourth quarter of 2020, and decreased by 9.9% year-over-year from \$1.60 million in the first quarter of 2020. The slowdown was primarily due to declines in certain of our licensed mobile games, where the upgrades and supports from our Japanese and Korean licensors were severely hampered by the COVID-19 pandemic.
- Consolidated gross profit decreased to \$0.79 million from \$0.82 million in last quarter and decreased by 14.70% from \$0.93 million in the same quarter last year.
- Consolidated operating expenses were \$1.69 million in the first quarter of 2021, representing an increase by \$0.27 million quarter-on-quarter, or an increase by \$0.13 million from \$1.57 million year-over-year. The increase was mainly due to rises in certain general expenses.
- Net loss for the first quarter of 2021 was \$0.87 million, increased from a loss of \$0.34 million in the fourth quarter of 2020, from a loss of \$0.28 million in the same quarter last year.
- Cash, cash equivalents and restricted cash at the first quarter-end of 2021 accounted for \$44.45 million, which decreased by \$1.56 million from the end of 2020.

## Financial Position

GigaMedia maintained its solid financial position, with cash, cash equivalents and restricted cash amounting to \$44.45 million, or approximately \$4.02 per share as of March 31, 2021.

## Business Outlook

*The following forward-looking statements reflect GigaMedia's expectations as of May 3, 2021. Given potential changes in economic conditions and consumer spending, the evolving nature of digital entertainments, and various other risk factors, including those discussed in the Company's 2020 Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission as referenced below, actual results may differ materially.*

"The second quarter of 2021 is already expected to be tough," cautioned GigaMedia CEO James Huang, "but we will continue boosting productivities and enhancing services for our in-house developed casual games by introducing fast-paced playability and accelerating the development of our customer platform."

Meanwhile, our business strategies always include expanding through mergers and acquisitions. "Including the possible cooperation with Aeolus Robotics Corporation," said CEO James Huang, "we will keep pursuing investment opportunities that are with strategic potentials to expand our business and create greater shareholder value."

## Use of Non-GAAP Measures

To supplement GigaMedia's consolidated financial statements presented in accordance with U.S. GAAP, the company uses the following measure defined as non-GAAP by the SEC: EBITDA. Management believes that EBITDA (earnings before interest, taxes, depreciation, and amortization) is a useful supplemental measure of performance because it excludes certain non-cash items such as depreciation and amortization and that EBITDA is a measure of performance used by some investors, equity analysts and others to make informed investment decisions. EBITDA is not a recognized earnings measure under GAAP and does not have a standardized meaning. Non-GAAP measures such as EBITDA should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, other financial measures prepared in accordance with GAAP. A limitation of using EBITDA is that it does not include all items that impact the company's net income for the period. Reconciliations to the GAAP equivalents of the non-GAAP financial measures are provided on the attached unaudited financial statements.
