Financial Position

GigaMedia maintained its solid financial position, with cash, cash equivalents and restricted cash amounting to $27.97 million, or approximately $2.53 per share as of March 31, 2026.

Business Outlook

The following forward-looking statements reflect GigaMedia's expectations as of May 4, 2026. Given potential changes in economic conditions and consumer spending, the evolving nature of digital entertainments, and various other risk factors, including those discussed in the Company's 2025 Annual Report on Form 20-F filed with the U.S. Securities and Exchange Commission as referenced below, actual results may differ materially.

"In the following quarters, we will dedicate ourselves to boosting the productivity of our products and services. GigaMedia will stick to the strategy of pursuing healthy growth with a lean operation," stated GigaMedia CEO James Huang.

Meanwhile, besides our investments in Aeolus Robotics, our management continues exploring possibilities of expanding our business through strategic investments to create greater shareholder value.

Use of Non-GAAP Measures

To supplement GigaMedia's consolidated financial statements presented in accordance with U.S. GAAP, the company uses the following measure defined as non-GAAP by the SEC: EBITDA. Management believes that EBITDA (earnings before interest, taxes, depreciation, and amortization) is a useful supplemental measure of performance because it excludes certain non-cash items such as depreciation and amortization and that EBITDA is a measure of performance used by some investors, equity analysts and others to make informed investment decisions. EBITDA is not a recognized earnings measure under GAAP and does not have a standardized meaning. Non-GAAP measures such as EBITDA should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, other financial measures prepared in accordance with GAAP. A limitation of using EBITDA is that it does not include all items that impact the company's net income for the period. Reconciliations to the GAAP equivalents of the non-GAAP financial measures are provided on the attached unaudited financial statements.
